letter

About me

- I'm one of the most common birds in the UK
- I'm small and only weight about the same as a £2 coin!
- I'm a social bird - you might spot me in flocks of up to 20
- When milkmen used to regularly deliver to people's doors, I would peck the foil bottle top and collect the cream!

What I
eat

- Nuts, seeds, insects and caterpillars (mainly insects in the summer)

My feather
colours

- I'm blue, yellow, white and green
- I'm most recognisable for my blue cap

Where I
live

- Woodlands, hedgerows, gardens and parks
- Across the whole country apart from the Scottish Highlands

My
nest

- Made of moss, hair, leaves, lined with fur, feathers or wool
- Usually a hole in a tree or nest boxes
- But also odd places like street lamps!
